1.1 Pure Distilled Essential Oil

Natural essential oils are 100% pure, extracted through steam distillation and sold as it is without any alteration to their composition. The oils are highly volatile and potent which retains almost all of their therapeutic benefits. They are ideal for natural and high end cosmetic formulations, can be applied directly (after appropriate dilution) or used for aromatherapy benefits.

1.2 Essential Oils – Cosmetic Grade

2.1 ESSENTIAL OILS - cosmetic grade oils are suitable for applications in skin and hair formulations including creams, lotions, shampoos etc. and are for external use only. The oils have been modified from their natural state in line with IP/BP/EP/USP (Pharma) standards to suit the commercial requirement of the industry. They are often referred to as grade B oils. 4.1 100% Pure Hydrosols

HYDROSOLS - hydrosols are a by-product of steam distillation process to product essential oils, while they have similar therapeutic properties to essential oils, Hydrosols are water based. Due to their high water content (99.9%),Hydrosols have a very limited shelf life. our hydrosols are without preservatives and uses are advised to add their own.

100% Pure Hydrosols

Terms and Conditions

1. The listed prices are of products only inclusive of packaging and exclude Courier / Transportation charges which will be extra and at actual
2. Courier costs – Rs 75 (+GST) for upto 1 kg, Rs 50/kg (+ GST) for weights above 1 kg under standard services.
3. Due to the volatile nature of the products, prices are subject to change.
4. GST extra – as applicable
5. We try our best to pack the products well in order to avoid any damage, leakage or spillage in transit. The Company, however, will not bear responsibility for any delay, loss or damage to goods in transit due to fault of logistics company or due to unavoidable circumstance. The company, however, may look at leakages and spillage in transit on a case to case basis (if it is due to faulty packaging)
6. Return Policy: No returns, Replacement of refunds are accepted in general except in the following Cases:
 - >> The supplier send the wrong goods in which case, the cost of return package will be fully borne by the supplier along with the logistics cost for resending the correct shipment.
 - >> Loss of goods in transit will be responsibility of the supplier who will ensure delivery of package to the customer.

Except the cases above, any request for return of goods will be solely at the discretion of company. Should a return/refund/replacement request is accepted, the logistics costs will be fully borne by the customer

7. Placing an order with us would imply your understanding and agreement with the above terms and condition; you are therefore requested to carefully go through the same. In case of any disputes, the above guidelines shall be applied to conclude the case
